Join our team as a Laboratory Technician or Biochemist and make a REAL difference!

Siemens Healthineers has recently announced the next steps in our continued commitment to prioritize colleague health, comply with customer/business partner requirements, and help preserve our business continuity. Going forward, please be aware that Siemens Healthineers requires full COVID-19 vaccination for all new hires by their start date except where prohibited by state law. (Note: Accommodations may be requested for certain medical or religious reasons)

Siemens Healthineers is a leading global medical technology company with over 170 years of experience and 18,000 patents. More than 48,000 dedicated colleagues in over 70 countries are driven to shape the future of healthcare. We stand with our customers around the world to support them in delivering high quality care to their patients. An estimated 5 million patients across the globe benefit every day from our innovative technologies and services in the areas of diagnostic and therapeutic imaging, laboratory diagnostics and molecular medicine, as well as digital health and enterprise services. This is what truly matters to us.

Our **Laboratory Technician** roles work in Reagent Manufacturing, Standards & Controls, Purification / Concentrates or Quality Control Laboratories.

Our **Biochemists** support the Technical Operations or Reagent Manufacturing divisions.

All these positions involve the handling of various types of materials, including hazardous and DEA (Drug Enforcement Agency) controlled materials.

Required Education, Skills & Experience:

- The passion for healthcare, to improve patient outcome, and drive manufacturing excellence
- BS in Biology, Immunology, Chemistry, Biochemistry, or other related fields
- 0-4 years' experience in a laboratory setting or equivalent academic experience (experience is dependent on job position and level)
- Basic understanding of the principles behind immunodiagnostic technologies
- Demonstrated ability to think critically and thrive on challenges
- Excellent organization and time management skills
- Attention to detail
- Ability to multitask and prioritize competing demands
- Must be flexible and demonstrate the ability to quickly change priorities to meet business needs
- Must pass a Drug Enforcement Administration (DEA) background check

Preferred Knowledge/Skills, Education, and Experience include:

- Advanced degree: Biology, Immunology, Chemistry, Biochemistry, or other related fields (*Biochemist Level 2 and higher*)
- Past success with complex, high visibility, time sensitive projects
- Ability to quickly learn and understand state-of-the-art lab equipment.
- Experience with statistical tools for data analysis

At Siemens Healthineers, we value those who dedicate their energy and passion to a greater cause. Our people make us unique as an employer in the med-tech industry. What unites and motivates our global team is the inspiration of our common purpose: To innovate for healthcare, building on our remarkable legacy of pioneering ideas that translate into even better healthcare products and services. We recognize that taking ownership of our work allows both us and the company to grow. We offer you a flexible and dynamic environment and the space to move beyond your comfort zone to grow both personally and professionally.

If you want to join us in transforming the way healthcare is delivered, visit our career site at [Siemens Healthineers Walpole Careers](#)
